Carbon Coder		
RH-001	<p>Carbon Coder is a universal transcoding product that supports a wide variety of broadcast and web formats. A partial list of the supported formats includes MPEG -1, MPEG-2, MPEG-4, H.264, Windows Media, DV25, DV50, DVCPro, HDV, VC-1, DPS, DivX, Flash, Real Video, QuickTime, AVI, ASF, MXF, LXF, GXF, sQ, Omneon Spectrum, and 3GPP. In addition to converting between formats, Carbon Coder also supports additional processing like video filtering, audio filtering, NTSC/PAL conversion, SD/HD conversion, cropping, frame rate conversion, color space conversion, time code burn-in, logo insertion, metadata conversion, etc. The Carbon Coder product may be run in stand-alone fashion via its user interface or unattended in batch mode via watch folders. Carbon Coder can also be controlled via an XML-based SDK which is included with each product. Multiple Carbon Coders may be used in a transcoding "farm" controlled either via the SDK or via Rhozet's Carbon Server management software.</p> <p><i>Carbon Coder has a per-machine license rather than a per-CPU license – each copy of Carbon Coder can be run on one</i></p>	3 999 €
CarbonServer		
RH-002	<p>Carbon Server is management software that controls an unlimited number of Carbon Coder nodes in a rendering "farm". The Carbon Server software manages job distribution, job priorities, load balancing, FTP transfer, status monitoring, and job notification. All interaction with the server software is through an administrative web interface that may be accessed from remote machines. The management software allows for automated processing of highvolume transcoding tasks as well as pre-emptive special case jobs. The Carbon Server software may be controlled via the same XML-based SDK used by Carbon Coder. The SDK is included with each copy of the software.</p> <p>The price for Carbon Server includes one Carbon Coder rendering node that runs on the same machine as the server. <i>Each copy of Carbon Server includes 1 year of free maintenance and support. Additional years of maintenance may be purchased for an annual fee of 15% of the retail price.</i></p>	11 999 €
RH-Capture-Mod	<p>Carbon Coder Capture Module</p> <p>The Capture Module for Carbon Coder is a software plugin that allows you to capture footage directly into the Carbon Coder software. This card supports capture cards from Osprey</p>	399 €
Rhozet Carbon Coder Turnkey		
RH-CC-Turnkey	<p>The system comprises Rhozet Carbon Coder software and Intel 2.8 GHz/2MB Xeon 800 FSB, 1st CPU 1x HP 1 GB(2x 512 MB) DDR2-400 ECC reg.xw8200 1x NVIDIA Quadro FX 1400 (xw8200) graphics 1x HP 160 GB SATA 3 Gb/s NCQ 7200 1st HDD 2x HP 250 GB SATA3 Gb/s NCQ 7200, 1st HDD HP RAID 1 configuration LSI 3041E 4-port SAS/SATA RAID Card HP PS/2 Standard Keyboard HP Optical Mouse HP Floppy Disc Drive xw 8200 HP 48x DVD-ROM/CD-RW combo drive, xw 8200</p>	7 999 €
Rhozet CarbonServer Turnkey		
RH-CS-Turnkey	<p>The system comprises Rhozet Carbon Server software and one Carbon Coder license system is Intel 2.8 GHz/2MB Xeon 800 FSB, 1st CPU 1x HP 1 GB(2x 512 MB) DDR2-400 ECC reg.xw8200 1x NVIDIA Quadro FX 1400 (xw8200) graphics 1x HP 160 GB SATA 3 Gb/s NCQ 7200 1st HDD 2x HP 250 GB SATA3 Gb/s NCQ 7200, 1st HDD HP RAID 1 configuration LSI 3041E 4-port SAS/SATA RAID Card HP PS/2 Standard Keyboard HP Optical Mouse HP Floppy Disc Drive xw 8200 HP 48x DVD-ROM/CD-RW combo drive, xw 8200</p>	15 999 €
